This is a known bug that has surfaced. Error Fix Crysis 3 DX11 Please watch:. You can fix Crysis 3 DX11 at the end of the game. Crysis 3 DX11 Fix Please.Q: Azure Resolve DNS issue with Windows Azure Im having issues with my DNS in azure. I have an "shopping" domain and I have set a public DNS name in my new web role but Im facing the issue. It doesnt resolve my shopping.com URL via DNS and my page looks at the Cloud Role and cant find the URL. When I ping the IP address of my server I get "Request timed out" Here is my Windows Azure setup so far: Sites Collection > name: shopping I have set the following in the Route 53: ****key**** Name Servers: NS-xxxxxxxxxxx.azure-dns.com NS-xxxxxxxx.azure-dns.com NS-xxxxxxxx.xxxxxx.com NS-xxxxxxxxxxx.azure-dns.net A: For the name servers you should be able to use the *.azure-dns.com entry. Do you mean name servers NS-xxxxxxxxxxx.azure-dns.com? You can't do that. You would have to use either the name servers entries or just *.azure-dns.com. Name servers by themselves are not supported. 1. Field of the Invention The present invention relates to an apparatus for determining the correction value (optical power) in an optical disc drive, and more particularly to a method and an apparatus for determining the correction value by adjusting the signal level of an input signal from a light beam. 2. Description of the Related Art A technique of reading data from or writing data to an optical disc including optical discs such as a compact disc (CD), a digital versatile
